DRYING MADE EASY — AND MORE STYLISH.

Drying your clothes just got easier. LG's revolutionary front control design brings the Dual LED control panel front and center, putting the controls at your fingertips. And thanks to the water-resistant HydroShield™ coating, they're protected from accidental spills and splatters. Add Sensor Dry's ability to monitor moisture levels and automatically adjust drying time as necessary, and you never have to worry about loads coming out damp. It's a truly modern take on traditional dryer design.

SPECIFICATIONS

- 7.3 cu. ft. Ultra Large Capacity with Aluminized Alloy Steel Drum
- 9 Drying Programs
- 4 Temperature Settings

STYLISH DESIGN

- Front Electronic Control Panel with LED Display
- Body-Matching Solid Door
- Reversible Door

INNOVATIONS

- Sensor Dry System
- Precise Temperature Control with Variable Heat Source
- LoDecibel™ Quiet Operation
- SmartDiagnosis™
- 3 Minute Installation Check
- FlowSense™ Duct Clogging Indicator
- Wrinkle Care Option
- Damp Dry Signal

7.3 cu ft Ultra Large Capacity

Do laundry a little less often. With **7.3 cubic feet of capacity**, this dryer handles really large loads, saving you time and energy.

SmartDiagnosis™

If you ever experience an issue with your LG dryer, you don't have to worry. The **SmartDiagnosis™** feature helps the service center diagnose problems over the phone, or with a simple app on your smart phone, helping you minimize costly, inconvenient service calls.*

Front Control Design

LG puts a modern spin on the traditional top load design. By moving the control panel from the back to the front, the buttons and LED display are easier to read and use. This simple change makes for a more intuitive and functional design and a look that is unlike anything you've ever seen.
